Since 2010 NTS International is focusing on Design consultancy, Procurement, supply and Project Management for the Hospitality industry and private villa. From 5stars luxury hotels, to apart-hotel and residences we have delivered turn-key solutions to Hotel Chain and Private villa.

Mock-up Room

Sometimes the vision and the 3D rendering lose the expressiveness for the details and the touch of the real materials. We bring idea into reality for clients that really want to see and touch the design, with mock-up rooms for client approval, either on-site or in our facilities.

Focusing on Hotels and private villa turn-key solutions, we won't substitute your architect project design but we will integrate with, thanks to a deep understanding of "dream and realise" difference and the feasibility of the equation made by interior design / cost control and quality results we advise or re-design the current project according to owner's needs.

Project Management

From site advising and construction oversight to furniture purchasing and installation, the future success of a hotel project starts with us and private villa. We know the critical issues in developing a project. We'll add value to even the most seasoned real estate development team, as well as provide assistance at all stages of the process. We'll also work diligently to avoid problems and implement cost effective solutions if they do arise. Our development and project management services include:

Market study and feasibility analysis

Government compliance and approvals on on-site works

Detailed GANTT and project schedule

Execute drawing and re-drawing arrangements

Project budgeting

Construction management oversight

Purchasing and installation oversight

Work force management and selection

Full daily and weekly reporting

On-time execution and strict Timeline management

Procurement

From 2010 NTS International is delivering high-end Furniture and Fixture to the leading hotel chain and luxury projects. Thanks to our experience in furniture design and furniture production we deliver turn-key project with highest grade of quality and durability and over the standard warranty time.

We produce in-house bespoke furniture in our factory in Padova (Italy) : solid wood and veneer casegoods, tables and accessories.

Our partner company is focusing on upholstering sofa and sofa chairs and dream kitchens, the outdoor goods are made in our own-operated factory in Indonesia and Hong Kong.

Lightings and rugs are made trough third-party manufacturers in Italy and Hong Kong , vendors and makers for the leading furniture brands in Italy.

Project Management

Born To be The Best

Our starting point is the great passion with which we cherish the art of architecting and furnishing luxury properties. NTS plaudits its dedication towards searching for and working only with the best, suppliers and our always esteemed customers, alike.

NTS has built strong ties with the most acclaimed furniture producers on the global scene, with excellent production capability records, backed by modern and advanced techniques.

PRIVATE RESIDENCES

In the valleys and plains of Qatar, sunlit by the sun, fascinated by the tramway and dotted with green palm trees, the villas of famous and influential Qatar families arise. Our client demands is to create and build a 600 to 4000 square metres villa, original in design, that would have emanated both sophistication and surprise, accompanied by the serenity of having built their dream villa without any concerns.

For our clients we have created the main hall of the residence with a color scheme that moves through various colors of green, blue and mother-of-pearl tones and decorative displays that recall floral arabesques redesigned in both contemporary style and classical style. The marble floors, from the best Italian caves, accompanied by Brazilian granites, combine with precious fabrics such as damask and silk velvet to create a truly exciting and relaxing atmosphere.

The same "style" is used for the reception rooms: the main Majilis and the dining room. In these areas, especially important for our customers, we combine furniture made by companies and artisans who love doing their job well. The seating and upholstery of our sofas make the house comfortable and desirable, embellished with mosaics and paintings chosen with passion and craftsmanship.

In all the rooms we use unusual lines, searching for a classicism or contemporary different from the usual style, desired by our customers to make their villa harmonious and fascinating. The use of selected items and furnishings helps to lighten the spaces, making them bright and comfortable. Details elaborated by esteemed artisans, cared by our best architects, contribute to the uniqueness of the interior. All rooms are decorated and painted with grout and varicoloured paint.

The areas dedicated to the younger members of the family are characterized by intense and relaxing colors that truly create a joyful environment wrapped in a fairly fairy-tale atmosphere.

We design and create villas to be desired, loved and lived.

NTS is a Qatar established company, and within a short space of time has managed to root its presence in influential markets such as Italy, UK, Luxemburg and Tunisi, marking its competitiveness on turning into reality the requirements, dreams and desires of the end user.

Our Clients are our Capital

Every project is as unique as the client that has commissioned it. We take care of every detail including the design of the single piece of furniture, the property's interior, and exterior.

Our company follows every phase of the project, and offers personalized design within the production, installation and final testing of the furniture.

We are deeply committed to the development of every project, and the fine finishes with which our furniture is created because we firmly believe that it is within the details that the quality and therefore, the happiness of our client, lies.

Why Choose NTS

The production-cycle of the manufactures we affiliate ourselves with, gives us full control over the final items finishing, assuring their uniformity. We commission the full furniture production for the same client, at the same time, so that we can punctually deliver a product that respects only the best levels of conformity.

Why NTS, the three pillars:

- Punctuality
- Accuracy
- Affinity
- Creativity

Punctuality: We love to deliver our projects on time because we truly recognize and value the importance our clientele gives on enjoying their dream home with the avoidance of lengthy and protracted works.

Precision: Like yourselves we are devoted to beauty, and to take care of every little detail that generates a unique and personalized ambiance.

Emotion: We'll faithfully dedicate ourselves on turning every part of your property into something capable of translating to pure emotion.

Creativity: Create Your Dream.

The customer is our real capital.

Our team of architects, and commercial department's international expertise, allows us to offering a quality and personalised service in the realization of villas, prestigious residences, hotels and restaurants. Our clientele's satisfaction is the best accomplishment.

Contract & Luxury

Thanks to the alliances with some of the world's best producers, NTS has specialised itself in the engineering, production and installation of furniture, finishing, and accessories within the contract sector.

Choose now...choose well!

POOLS AND WELLNESS

We build eco-friendly pools

"Doctor Service" wakes up to the quality of service offered to customers, monitoring the waters and following scheduled maintenance over time

Whether it is a minimalist home or a luxury home, we are next to you
